Projects

Game Chess

- **Web-Based Multiplayer Application:** Designed for two players on the same device.
- **Interactive Chessboard:** Click-and-drag functionality for seamless piece movement.
- **Turn Indicators:** Displays real-time updates on whose turn it is (White or Black).
- **Responsive Design:** Adapts to various screen sizes, ensuring a smooth user experience.

- **Technologies Used:** HTML, CSS, and JavaScript for front-end development.

Facebook Streaming Frond-End

- **Web-Based Social Media Interface:** Designed to mimic the Facebook profile page.
- **User Interaction Features:** Includes posting updates, liking, commenting, and sharing.
- **Dynamic Sidebar Navigation:** Contains links to Friends, Videos, Pages, Groups, and more.
- **Story Section:** Allows users to add and view stories interactively.
- **Responsive Design:** Ensures usability across different screen sizes and devices.
- **Technologies Used:** Built with HTML, CSS, and JavaScript to create an interactive and visually appealing UI.

Movie Streaming Front-End

- **Hero Section:** Displays a featured movie with a high-quality banner and description.
- **Movie Categories:** Organized sections for "Latest Movies," "Top Rated Movies," and "Popular Movies," each showcasing movie posters in a grid layout.
- **Subscription Plans Section:** Designed an interactive pricing section with clear options for Free, Premium, and Exclusive plans

E- Commers

E-Commerce Website Project Highlights for CV:

- **Web-Based E-Commerce Platform:** Designed for showcasing and purchasing products online.
- **Interactive Product Display:** Includes a dynamic product gallery with filtering and sorting options.
- **Shopping Cart Functionality:** Enables users to add, remove, and update items in the cart.
- **User-Friendly Navigation:** Features categories, search functionality, and responsive menus.
- **Responsive Design:** Optimized for seamless browsing across various screen sizes and devices.
- **Technologies Used:** Built with HTML, CSS, and JavaScript for an interactive and engaging user
